ABOUT ME

I am 20-years-old computer engineering student. My passion for coding led me to teach myself programming. I am focusing on developing skills in machine learning, data science, and artificial intelligence. While I'm still in the early stages, I'm committed to continuous learning and growth in these fields.

EDUCATION

2024- Present	**Düzce University- Computer Engineering (english)**
2023- 2024	**Düzce Hakime Erciyes School of Foreign Languages - English**
2022 - 2022	**Instituto Politécnico de Santarém Portugal (Erasmus)**
2018- 2022	**Kanuni Vocational and Technical High School (Kanuni Mesleki ve Teknik Anadolu Lisesi)**

PROJECTS

2023-2024 Python	**Word App** An application to help me track unknown English words. The app has four main features: My lists, translation, practicing and grammar correction:
2024 - 2024 Python	**Ai-Powered Translation** This is an AI-powered translation and OCR (Optical Character Recognition) application. The application allows users to translate texts, ask questions to the AI, and extract text from images. I used Google Gemini Apı ın order to use Ai. It is developed for education
2024 - 2025 Html Css Javascript	**Personal Portfolio Website** My personal website. I created it to develop my front-end and back-end skills. I learned a lot about web programming. You can find everything about me, including my projects and certificates.
